PCT Applications Quote Request

I am requesting a quote for work on 7 already submitted PCT applications.

The PCT application titles and numbers are:

1. Magnetic Repulsion Motor & Generator (PCT/US2018/038208)
2. Leverage Motor and Generator (PCT/US2018/038217)
3. Gravity Motor and Generator (PCT/US2018/038191)
4. Buoyancy Motor and Generator (PCT/US18/38233)
5. Simplified Development of Computer Applications (PCT/US2018/038377)
6. Separation and Playback of Audio Components (PCT/US2018/038528)
7. Content Monetization and Development (PCT/US2018/038369)

The provisional patent applications for the first four patents, which are probably 99% identical to the submitted PCT applications, are freely available on the homepage of bannonmaher.com. I have also downloaded PDFs of all PCT application correspondence from the USPTO which is available in a zip archive upon request.

I am requesting quotes for all work when ensuring approval with the USPTO, as well as for ensuring approval in approximately 17 countries and for the first 4 previously listed of the already filed PCT applications.

The earliest priority date for the applications in June 20th, 2017, and 30 months from that date is January 20th, 2020, and no chances can be taken, so obviously this work is very time sensitive. Please include an explanation of the time required as well as the timing.

I want my patents to be approved immediately, and to be impervious to endless attack with unlimited resources.   The 4 most valuable PCT applications each contain an invention that is a scientific breakthrough, however I wrote the claims to be as broad as possible to have the patent office cite as much prior art as possible to strengthen the patent, and as a result the claims were not approved as is in an initial assessment by the patent office, so the claims for all these patents need to be refined around citations of claimed prior art, while additional prior art

likely needs to be identified and written around to strengthen the claims. I've reviewed the cited prior art, and none of it is relevant, however there is a possibility the claims recited in the prior art could be claimed to have some conflict with my claims as currently drafted.

Please provide a quote listing the individual costs for preparing all of the necessary claims, prior art, and responses to office actions for each patent in the United States, and in person claim negotiation with patent examiners if necessary. I would like the costs (1) for you to prepare the documents for me to submit (2) the price for you to submit everything, and (3) the price to follow up on additional office actions. Please also include the number of applications you have previously filed and had approved with each office, and if you are able and willing to accept equity compensation or require cash.

The countries or regions where I would like quotes for the four energy and motor system patents, are in the appended chart, which is in descending order of importance based on market size and patent enforceability. This spreadsheet is available with additional detail on the homepage of bannonmaher.com.

	Country / Regional Office	Patent Priority Ranking	Annual Energy Spending (billions)	Patent Enforcability	Large Spending Increase Expected	Language	Average Annual Income (USD)	GDP ($tn)	Annual Energy Consumpti on (billions of tons of crude oil equivalent)
1									
2	United States	1	1,132	High	No	English	60,830	20.49	2,263.15
3	European Union	2	561	High	No	English	28,956	17.27	1,122.49
4	China	3	2,080	Low - Medium	Yes	Chinese	8,690	13.41	4,160.12
5	India	4	534	Medium - High	Yes	English	1,800	2.72	1,068.47
6	Japan	5	219	High	No	Japanese	38,550	4.97	438.77
7	South Korea	6	135	High	No	Korean	28,380	1.62	270.71
8	Canada	7	135	High	No	English	42,870	1.71	270.42
9	Brazil	9	201	Medium	Yes	Portugese	8,600	1.87	402.28
10	Russia	10	362	Low - Medium	No	Russian	9,230	1.63	723.16
11	Indonesia	11	148	Medium	Yes	Malaysian	3,540	1.02	295.58
12	Saudi Arabia	12	105	Low - Medium	No	Arabic	20,090	0.78	210.63
13	South Africa	13	102	High	No	English	5,430	0.82	204.12
14	Mexico	14	96	Medium	No	Spanish	15,314	1.22	191.14
15	Australia	15	69	High	No	English	51,360	1.42	138.95
16	Turkey	16	63	Medium	No	Turkish	3,604	0.77	126.33
17	Argentina	17	40	High	No	Spanish	13,030	0.63	80.35
