Market Potential is the most important commercial indicator for your track. It combines the Track Rating and the Passion Rating to give a definitive prediction of commercial success within the market. This is presented as a percentage between 0% and 85%. You're looking for a minimum of 65% to have a chance of chart success.\*

The Market Potential classification indicates where the track is positioned among over 100,000 other tracks.

\* Chart success assumes a reasonable promotional budget. It should also be noted that the relative success of a single is also directly related to the existing profile of an artist.

The Track Rating is the overall rating for your track as calculated from the weighted average of all the reviewers' ratings. This simply measures how "good" the track is overall (not necessarily the Market Potential).

Passion Rating is important and has a big impact on potential sales. It indicates the intensity with which Reviewers liked your track compared to how they've liked other tracks; whether they thought it was OK, Liked, or Loved it. A low passion rating doesn't necessarily mean reviewers didn't like the track; it may mean reviewers liked the track, but didn't like it enough to take it any further. The range is 0-10.

I loved this song! The music and singers voice flow perfectly together. The signers voice is unique and not just some average person's voice. The lyrics are interesting and demand your attention. I could imagine this song on the radio just like any other song that's out there already. Would love to hear more from him.

Female Age 20  
Rating: **10**

Very beautiful song! I am in love with the lyrics! Sounds soooo much like my past relationships and I feel like it will relate to a lot of people. Even though the lyrics are sad and touching, it is still a feel-good kind of song and it comes off as a very sweet song. Not an upbeat song but something I would listen to just hanging out or when I am feeling down and need music to lift me up.

---

Female Age 45  
Rating: **10**

Somber opening with a sad feel to it. The vocals match, but the male vocalist has an outstanding voice. He sings in a clear, crisp way and is perfectly on key. This song is pretty much perfect. The lyrics are brilliant and the vocals are outstanding. The musical score adds the most beautiful backdrop for the song. Excellent job!

---

Female Age 35  
Rating: **7**

I love how he jumps in with a swinging melody that is beautiful 'when love shuts the world out' and then he stops, and the instruments take over. I feel like the instruments are in a hammock and the world is spinning around it. The lyrics are awesome. The guitar is cool. But as I listen to it, it doesn't sound too unique. He needs to come out of the mold a little more. When he sings 'when I find the colors' he comes a little more out of the mold.

---

Female Age 24  
Rating: **10**

I love this beat. It caught my attention right off the bat. It made me interested. I love his voice! It is so beautiful and honestly I didn't want the song to be over. The words are do pretty and put together so beautifully! I love love love this song!

---

Female Age 26  
Rating: **8**

Very nice quality song. The male voice is beautiful atop of the melody and the lyrics are heartwarming. The song is very well put together in a harmonic way. I like it a lot. His voice sounds very good and the cymbals and guitars flow together nicely. Would like to hear more from this artist.

---

Female Age 19  
Rating: **4**

I thought the music was too slow for my taste. The drumming was alright, and it kept up with the pace of the guitar good. I liked the chords of the guitar, but not so much the lyrics. I found the lyrics were repetitive and it sounded like the singer was whining. I think if the music and the lyrics were faster pace I might have enjoyed the song more.

---

Male Age 37  
Rating: **8**

I really like the song because it's quite calm and I like the guitar playing in the background I think it's great song It gives you a great majestic feeling when you listen to the song although I had a second listening to the lyrics and there is too little of lyrics and they dont really make sense to me. All that I can tell that its a love song. Im going to give this an 8/10. Well done.

---

Male Age 17  
Rating: **8**

This song was excellent. The music perfectly accompanied the vocals. This is a song I'd definitely purchase and share with friends. The vocalist is on point with notes and I would guess that hes a well known performer. Theres no question that this performer is going to make a name for himself in the next couple of years.

---

Female Age 32 Rating: 6	The tune itself is somewhat fitting for the love song. I think that there should actually be more lyrics to match the driving beat of the song. I like the voice of the singer when he is singing in the lower octaves, but I think he loses his pitch a little when he sings higher. So either this song needs more lyrics, or less drums.
Female Age 43 Rating: 10	Love the bigness of the instrumentation. It is very full. Lovely strings. The vocals are subtly delivered, but his voice is sensational. He has a great tone to his vocal. Overall, I really enjoyed this track, and I would highly recommend it to everyone that I know. You guys sound very professional, and very competent, and I enjoyed it very much.
Male Age 18 Rating: 6	This isn't a bad song at all. It is very 'Goo Goo Dolls' and the band seems to have a lot of potential with this song. It has a lot going on, very good drumming and guitar playing. A nice steady beat with a decent singing voice and good lyrics. Overall a pretty good song!
Female Age 20 Rating: 9	A silent and slow instrument creates a chilling effect a different instruments add on. A mellow voice begins to play, the lyrics being sung give a meaning or a story for listeners to be entertained by. The accompaniment is full of instruments that mix with the vocals. The songs recording quality sounds perfect to the ear, No haziness or any bad distortions, this makes out for a perfect listening experience. This song is moving and makes me want to listen for hours so keep doing what you are doing. Good work!
Male Age 21 Rating: 2	The guitar being used isn't my favorite part of the song as it just doesnt fit right. Also I hate how the song is slow paced I usually hate slow paced songs like this and suggest it being sped up a bit to make it better. On the other note the best part is the voice kind of.
Male Age 14 Rating: 8	The intro to the song is really powerful to me it comes with a loud beat. Also the intro gives me a happy feeling I can relate to the song. The melody is also v th moving it fits right in with the song. I can understand the lyrics well but it can be better. The rythem has a positive effect on my feelings and gives me a spark of joy. The production and recording quality is good but it can be a lot better with effort. The tuning is wonderful. I'm in love with the base in the song. The pitch and range I can do without. The harmony went up in the intro of the song then started to fade away throughout the song. The acoustics of the song were great I would love to hear more of it. The voices are very bad but the lyrics are good.
Female Age 24 Rating: 10	I absolutely love the guitar in the beginning of the song. When the guy started singing I got chills. Such a beautiful song! The lyrics are just breath taking. I could really see this song being played on the radio. I could also see this being played at a bunch of Weddings. It has such a soothing beat and the lyrics are a big part of that. I would love to share this song with my family and friends. I feel as if they would have the same feelings about this song as me. I thing this song could be a really big hit.
Male Age 24 Rating: 6	Very nice strumming pattern on the guitar. The string instruments are unique but they sound great. The beat is consistent but nothing new from any other song. The lyrics are far too normal, it is a generalized love song that is repetitive and boring. I think the chords could have changed to a minor key during the sad parts of the song. The string instruments get annoying and repetitive after a while, I can predict every pattern and chord change which is not good.
Male Age 21 Rating: 10	I like the sounds of the acoustics on this track. It has the vibe of a 90's Goo Goo Dolls Acoustic/Alternative Rock style. This has the strong potential to become a radio single. The strings also makes a good addition to support the track. The lyrics are very positive and can also become a contender on adult contemporary or Christian rock radio stations because I also get the vibe of Christian influence on this song.
Female Age 25 Rating: 9	I really think I enjoyed this song. It honestly sounded really beautiful. IT's one of those songs you hear in those romantic movies and I just really love it. The tone of the artist is outstanding and the guitar/violin/drum instruments being played in the background make the song sound extra awesome.

Female Age 17  
Rating: 7

I like the beginning guitar solo it really that's the tone for the song. And then how it mellowed with the violins and other instruments a really worked together in harmony. I'm not a big country fan but I really loved how the song played with different tones and harmonies. The art is voice is very raspy in the tree and I could not see anyone else singing the song with this amount of emotion. But saying that it kind of felt a little single note after a while, she needed more range in different tones in his voice to keep up with the song. The music itself really had a beautiful harmony with all of the instruments and how it worked with the artist but he needed more on his part. I don't know if I can see this becoming a hit but it's a nice song.

---

Male Age 35  
Rating: 8

Beautiful orchestra and instrumental selection at the introduction. The lead singer was also fairly effective and charming. The strength of this song is the lively musical accompaniment. The violins, percussion, guitar, and musical instruments were great. I could follow the song easily and felt comfortable listening to this song. A very warm and comforting pop song. lot of rich sound effects and background music. I think there is a market for this type of songs. As a fan of classical music I really appreciate songs like this one. I felt the song was very artistic, tasteful, mature, and classy. The tempo was just right.

---

Female Age 27  
Rating: 10

I really loved this song. I listened to the whole thing! The beat, rhythm, and vocals are smooth, and the song makes sense. I would put this on my playlist for work or background music while reading. Vocals add a lot to this, but would be nice even without vocals, just instrumental. I would probably buy an album. Great song and easy listening.

---

Female Age 36  
Rating: 7

The guitar acts as a very great instrument to chose as an introduction. I really like how this song is set up. Its a perfect in - between of slow and fast. Its a perfect combination of the two. Something else that I really like about this song has to be the lyrics. I really like how unique they are. And I also really enjoy how they are not extremely repetitive. Also, I really like how this whole song came together. Every single aspect of this song plays a really big roll in the overall picture.

---

Female Age 28  
Rating: 8

This song is an amazing performance. The singer's voice is very expressive and you can get a feeling for the effort put into the making. You can hear the many tones of his voice as well. The melodic tune is pretty distinct and I've never heard anything like it in this genre of music. The lyrics are heart-warming but they still feel a bit corny and cliché. However, instrumental pieces in this song are very well done with a beautiful mix of both vocals and music.

---

Female Age 18  
Rating: 10

I really like the slow guitar introduction it reminds me of a song ive heard before but i cant think of what its called. very very good vocalist. hes got that youngness to his voice which is beautiful. i could see myself singing along to this its amazingly beautiful. the verses are clean and easy to understand and they make the story of the song. i really love this song.

---

Male Age 20  
Rating: 8

Very unique style here. I'm not sure what genre this would be categorized in, so I guess that's a good thing. It means that the song sounds really original which is really unique these days. There's no song structure platform you're following to pursue popularity. You've created the structure yourself, which is actually what writing music is.

---

Male Age 16  
Rating: 9

Aww this was truly something special right here! Hear those picture perfect chords go on right in sync with the singer and the rhythm of the drums as this song was really something unique! I loved listening to those guitars just blend in perfectly well with the drums, very nicely done! Awesome job guys!

---

Male Age 19  
Rating: 9

I enjoyed the beginning. I thought it would be more of a sad and emotional song but it turned out to be different. I liked the vocals, the pitch and the tone just went well with the song. I think the guitar playing in the beginning was also nice. Overall, it's a nice song and it I believe it has the potential to be something greater.

---

Female Age 15  
Rating: 10

The guitar intro is very well done. It creates such a soft and beautiful sound. Then when the other instrument comes in it creates something very appealing to the hear. The vocals are amazing!!! I love how the lyrics are very easy to understand and they are so cool and relatable. I like how the song isn't overwhelming with sound. I literally love this song so much!!!! This song could definitely be a hit. The chorus is beautiful! This is such a relaxing song and the background music is perfect.

---

Male Age 20  
Rating: 8

this is great. Love the singer. the singer could add some more expression which is lacking. lyrics seem a bit bland. but a great song, definitely would buy. one more thing and thats the chorus blends in with everything else, so im waiting for the actual song to start and its just the chorus over again.

---

Female Age 27  
Rating: 6

A slow start but it got so much better. A really beautiful lyric really set off by the melody which all works beautifully together. You have a stunning voice, so soft but at the same time powerful. I really liked this track but I think it's quite similar to a lot of other songs and I think it's very "safe" without really doing anything different or new. I like it but I can't see it being a massive hit simply because it's like a lot of other stuff musically.

---

Female Age 16  
Rating: 6

The voice was soft and relaxing, as the tone and moving feeling was enough to make one feel at ease. The guitar stringing and the softness make you really put yourself in the relaxing melody that is this song. It is very sweet and very quiet. It has a lot of potential. You should go professionally into this business.

---

Male Age 46  
Rating: 7

The intro guitar sounded like something from 3doorsdown. The vocals are raw but polished. One would probably expect more from the lyrics. The song has excellent harmony to keep a listener tune in. The melody has some rock class. The weakest parts of this song seem to come from the lack of rhythm especially the bass beats. I give this song a rating of 7. Overall this song could appeal to listeners that are not really into soft rock.

---

Male Age 15  
Rating: 8

I like the into and the way they use a the gutar. I can see this song being all over the radio in th winter time. The song has a very melow and a little sad vib. I singer sounds like a angle and you can tell he is singing from his heart. I can really conect to theys lyrics.

---

Male Age 18  
Rating: 7

This song has a very nice soft melody. It fits in real well with the beat of the song. The singing adds to the precise energy of the track. It soft and lethargic. However, it lacks much meaning and energy. It does not give the audience that edge to explore the rest of the track beyond the 90 seconds. I recommend adding more energy to the song.

---

Female Age 22  
Rating: 9

True love was put into this record. "The fallout of love" is a real feeling that people can probably heavily relate too. The lead singer's voice is sensual and serious. You can hear the pain in his voice. I like how he relates the unbeauty of the world around him to his own feelings. The new age sound in this selection is great. Tonality wise, the beat master toned the music with ease so it sounds. I would like to hear "the fallout of love" on the airways.

---

Male Age 50  
Rating: 8

Very nice guitar work at the beginning. Great melody. Then the rest of the music and vocals come in and it's a very good blend of music and singing. The singer has a very nice voice, strong and soft at the same time. Great melody too and he holds his notes well. Great pitch. Lyrical content has high value as well. I think this is a good song with some good dynamics.

---

Male Age 25  
Rating: 6

I didn't like this song at all. It's just not my type, sorry. I do have some positives to say, by the way. The artist has a beautiful voice. It's very low and the confidence is there. The instrumental - I have mixed feelings about. It's sounds good, but sounds plain at the same time. The lyrics are by far the best part about this song.

---

Female Age 19  
Rating: **10**

I'm in love with the beginning or intro to this song. I'm the type of person who listens to music depending on their mood and I'd listen to this if I was reading, taking a nice long bath, or just for listening to in my room. The vocals are absolutely amazing. They are more amazing than some of the professional singers that are on the radio. I love the lyrics, they speak so much emotion and it can definitely hit someone in the right spot depending on how they feel. I'm giving this song a 10 but I would give it so much more had it been an option. Keep writing because I would definitely love to hear your stuff on the radio, and see it in concerts. Good luck!

---

Female Age 22  
Rating: **9**

The guitar intro to this song is played and written well. I can almost visualize it being played. The vocals of this song are beautiful and blend wonderfully with the guitar. This song has strong presence and body that makes me emotionally feel it. The lyrics of this song are relate-able and would be easy to learn and would be fun to sing a long too. All of the backgrounds are written nicely together.

---

Female Age 46  
Rating: **8**

I love the guitar solo at the beginning of this song. It is very beautiful. I love the way the other instruments are added after the guitar solo. Very nicely done. The man's voice is very pleasant. The drum beat is excellent. I would love to hear this song on the radio. Lost love is a great story for a song and this man definitely shows emotion while singing about his past love. The fallout of love is a nice phrase. I have very much enjoyed this song.

---

Female Age 25  
Rating: **9**

The introduction is very smooth and warm feeling. It takes a little long for it to begin. First verse blended in nicely with the flow of the beat. The melody is very memorable. The beat of the song connects well with the meaning of the song. His vocals are warm heartfelt, and unique. I love how he has a different deep but appealing tone to his voice. The instrumental was well balanced and smooth. It gave off a positive energy. The song was clear to understand. The artist sang with a little meaning in his voice which made this song very pleasing. This song made me feel his emotions. I got into the words he sang and they hit deep. I think there is a nice meaning to this song. The lyrics were inspiring meaningful, and heartwarming. I think the artist is talented and has a lot of potential. His vocals were natural as if he didn't have to put much effort into what he was doing. This song made me feel relaxed and in tune to what he was saying. I really enjoyed listening to this song.

---

Female Age 27  
Rating: **9**

The lyrics and the vocals are so on point. He sings so amazing! The color of the suns and fall out of love are amazing descriptions of his love for someone. As I was listening to the lyrics I was thinking of my father that passed 2 years ago. With the lyrics he seemed to be talking about a love he was missing or someone special. His elements of the track are so on point. His vocals are strong as well as the instruments.

---

Female Age 22  
Rating: **8**

Wow. You are really talented. It is a beautiful job! I love the instrument! And your tone, melody, and vocals are so soothing! I love the lyrics, I can connect to it. Also the amazing work on the whole aspect. It works well together. You are a very skilled person to be singing this song.

---

Male Age 16  
Rating: **7**

I like how it opens with a nice smooth guitar and some nice violin. The melody is very calming and the vocals just go great together with the other pieces of this composition. The persuasions do a great job of aiding the other aspects of the song. I especially enjoy the way this song flows and would give it something like a seven out of ten because I don't usually hear things like this and it is not bad.

---

Female Age 33  
Rating: **10**

I like the beginning of the song. Music is beautiful and well played. The guy's voice is amazing. I love the tone to his voice. It makes my heart melt. He has an awesome tone and just overall good voice. I love the words to the song as well. I would listen to this song over and over again.

---

Female Age 36  
Rating: **4**

I found the instrumental accompaniment to be very plain and simple. The artist has a nice voice but the lyrics are plain and the tempo makes the song seem too dragged out and slow for my liking. The lyrics might work a lot better if the pace were picked up a bit.

---

Male Age 14 Rating: 9	This song had a peaceful guitar and string instrument part which made it very sad at the start. The vocals were good and confident and the rhythm of the song was good. I enjoyed this song because of the style. The harmonies were nice and the instrumental was exciting and tuneful. The vocals were a little unpredictable with the tune but this added to the piece.
Female Age 35 Rating: 7	I like the song, it has a similarity to that song titled "iris". I like the orchestra backing, it makes the song dramatic, melodic and atmospheric. This could be in a movie soundtrack, or even in a tv show too. The artist sounds great in this song. This could be a hit to any age group of listeners. The song is very desirable, could be some people's choice of theme song of their lives. The song is kind of short though, that kind of makes the song anti-climatic. I can listen to this in the radio everywhere, in schools, or in parties the slow dancing part.
Male Age 25 Rating: 7	This is a pretty interesting and even elegant record; that is certainly what exactly on my opinion in the very first time that I heard this unique music. The harmony and the groove are very superb, the artist did very good work for the melody. This song has powerful and also uncomplicated beat. I believe it is a great music by skilled musician. The arrangement on the verse element is overly simple and I believe the artist should fix that. Overall this is a fascinating music, using solid melody filled with dynamic from the vocalist. The musician are designed amusing lyric and I do believe that's necessary to build fascinating lyric this way. The following song features very good chance that should be popular and could be a hit, its sounds similar to well known record while I just heard the song.
Male Age 25 Rating: 8	Nice easy intro sets up the lyrics well. The short vocal intro stops for too long after it's initial introduction makes it a bit awkward. Clear vocal quality, with strong lyrics. A good melody that creates a good picture. Has potential to be fairly popular but not a chart topper. The particular style might have made this song a lot more popular about five years ago. Still overall a really good song.
Male Age 17 Rating: 8	Very nice guitar intro to the song. I thought this was going to be a track I didn't particularly enjoy, but you blew me away with those lyrics. Very heartwarming and very sentimental, it almost reminds me of The Script, if I were to compare it to a more mainstream act. You should open for OneRepublic or The Script, I think a lot of people would enjoy this track. It's very lovely, and it would drive girls crazy in a good way. It can easily be mistaken for "just another love song" but you can tell you're putting a lot of thought into those lyrics and really speaking to a person in this track. Great work!
Female Age 20 Rating: 9	Opening very nice, pleasant, and soft. Great transition of the violin and other elements. The vocalist is nice as well. However their introduction seems a little sudden, I felt it didn't tradition well. The song is very pleasant, and I really enjoy the lyrics, however the way some of the lyrics are delivered sound mildly out of place. I really enjoy the way you pronounce the "sun", "gone", I feel it gives the song a really nice edge. Or it even gives it a really distinctive feel, the type of thing that would allow anyone to hear this song and go "OH I KNOW THIS SONG/ARTIST!". This is definitely the type of song that would be put on my personal playlist, as the music is nice, and the vocals are pleasant.
Male Age 44 Rating: 8	When love shuts the world down. That right there was heart warming and for that could be your next new hit. Then scars from days I can't remember which describes the hardships of life due to love and loses which is just about everyone's life so if you are reading this nice work and I wouldn't be surprised to see it on the radio. The sound of the drums is smoothing to the ears with the back ground music nice work. This track is smoothing and rocky at the same time it has a variety of instruments along with the singing and it really makes the next big thing.
Female Age 37 Rating: 8	This track is nice I love the voice. It is very uplifting with the lyrics. The drums are subtle yet they keep a great beat to have faith. A great song to put on and get a feel good mood or an inspiration. I love the instrumental break with the guitar, the vocals carry you to a better place!

Female Age 22  
Rating: **10**

Googoo dolls feel to the song. I love the guitar and I love the sound of the lead vocals. The lyrics have a depth to them that causes me to want to know the story behind them-don't change them. This song is spectacularly done. Instruments are perfect. The vocals are perfect. The lyrics are perfect. All adding up to a great sound. One minor thing, the tone changes in a few parts of the song seem unnecessary, the song is already dramatic in telling the story. The ending is also a little abrupt, smooth that out a little. Otherwise, fantastic piece.

I swear i've heard this beautiful song before! Great vocals,again the guitar playing, the calming vocals will get this guy somewhere in the world. Unlike that punk scremo music. He seems to know what he is doing with his music career. It sounds smooth (not rough) The music actually makes since when listening to the lyrics. Im going to rate this song a 7.

I was pleased to listen to this song it had a great start and kept me listening to the entire song throughout. the melody was soft and that made me feel the emotion behind the song. The instrumental was just right for this song. The vocals was understandable and never once did I hear anything that I find irritating. Thank you for the opportunity to listen to a really good song.

i like the somber and melancholy sound of the guitar and it really does harmonize with the vocals extremely well. I am loving the words in the lyric, and i can make them out too and hear them clearly! This sounds and feels like a song that i would in fact play often. The general sound quality of the song and the recording sounds professional and solid. The lyrics also seem to be actually making sense and saying something meaningful, and it seems as though you can really feel the energy from it too. The instrumentals are incredibly well put together. i really hope that this song gets played often on the radio, i think it will make people feel better

I would definitely recommend this to each and every person in the world, because this is a amazing song. I give it 10 out of 10 on the music scale and would definitely recommend this to major record labels.

New verses with unique lyrics keep listener excited about the song. Lyrics are easy to understand and follow throughout the song. Lyrics leave room for interpretation of the listener. Song is somewhat sad but remains with a hopeful attitude. The melody of the song is memorable without being annoying and syrupy. Nice short introduction. Vocals are very strong – rich and melodic, with a little huskiness that this reviewer appreciates. Arrangement has good pacing, is varied and interesting. This song has layers and complexity. The lyrics are engaging and tell a story. Nice hook. Strong commercial potential. I'd spend money on it.

This has a great sound. I love the acoustics, and the percussion can in at just the right time and blended perfectly with the guitar as the rhythm picked up. A sound like this has so much potential, and can be beautiful when paired with the right lyrics. With the right words this song could pack serious impact. The problem is, I feel as though the lyrics were all over the place, and didn't tie together well. They felt a little forced, as if you didn't believe what you were saying like you didn't really feel it. I didn't believe or feel it.

Cool acustic intro, kind of a haunting feel to it! I enjoyed the structure of the song. Drumming was pretty decent ala Zeppelin in areas. Lyrically, not too bad-nothing offensive which is always a plus. Kept my interest all the way through though which can't hurt for air play. The instumental background parts are neat. I think they have a future with success if they find new ways of arranging their songs and keep including non-offensive lyrics too.

Male Age 17 Rating: <b>9</b>	This track is excellent its the best ive seen so far, but there are a few minor things that i think should be changed. like the sounding of it i think it should be a higher and better bass and the song should go on longer then it is. but ill give this song a 9 for the effort on it
Male Age 15 Rating: <b>9</b>	I really like the flow of the songs its starts off really slowly and gently than it gets more better and better the mood of the song is smooth and gentle for the listener. The song could be played on a date or in clubs when couples dance together. The song is slow but not too slow because otherwise it would be a boring song. I would rate the song 10/10 if it had more sounds to make it more lively for us to listen too I think that adults would really like this song as it looks like its targeted at them. I don't think it would suit teenagers this days maybe some could like it.
Female Age 26 Rating: <b>8</b>	The vocals on this song are great. This artist has a sultry voice that goes great with this song. I love the melody. This song can and will be a hit. The band is amazing. I love the instrumentals and how the song flows together. This is a feel good track. The song has great tempo and has incorporated the different instruments into the song in a great way. The violin gives the song a good feel and its easy on the ears. This is a song that would be great for individuals in the mood to listen to music pertaining to love. The song length was just right.
Female Age 24 Rating: <b>8</b>	So far so calming and sweet, its nice. Well just nice. Not very professional sounding, a very natural voice isn't always the best either. Very good song though, definitely beautiful. Sounds like a very loving song, something to play at a wedding or something. which is quite sweet. i like it! i don't think there should be any changes made here. forget what i said earlier. its truly beautiful!! Very colorful and charming, sweet and cute. nice and loving. i enjoyed listening to this. definitely a must download for me! how darling. like the vocals, rhythm, indie work, pop musical preform, nice quality.
Female Age 19 Rating: <b>5</b>	The intro acoustic guitar was very soothing even with its simple chords used. The vocalist himself is very good and I personally like the little raspiness I hear. The instrumental track is put together very well and I like how the tempo changes throughout the song. The lyrics are nothing new really and that disappointed me a bit, but it was still soothing to listen to. As I continued listening to it, it reminded me a bit of the goo goo dolls and james blunt from the 90s. Which are artists I like, but I think the sound is too similar.
Male Age 22 Rating: <b>6</b>	The instrumental built up strongly to the main melody. The vocals were strong, clear and on key throughout the song. Halfway through the song, there was a good transition into the bridge. Unfortunately, the rhythm was quite repetitive and the melody did not stick out, making the song dull. Overall, I enjoyed it, but it was not that memorable for me
Male Age 20 Rating: <b>8</b>	This song is very beautiful it inspires me to sing, its vivid clear and striking chords in my heart. the lyrics are glowing and piercing. the lead singers voice is strong and smooth. the strings are arranged well and the drum is steady and pulsing along like a heartbeat as the love flows through the lead singers voice. i was immediately swept away and enveloped in the sound in the most curiously pleasing way
Female Age 20 Rating: <b>10</b>	I love love LOVE this song. In the beginning it sounds like a very calm, sweet country song like Love Story by Taylor Swift, but this song is so laid back and emotional. This would be a top hit for a little bit. It would definitely get a word out for this artist/band. His voice and the choice of chords is very soothing. I'm not an emotional person, but this might actually bring me to tears. I'm so upset it's over now. I want to hear more!
Female Age 19 Rating: <b>9</b>	As I listen to this I feel like the beat is a romantic beat. I liked it a lot. The content and elements were on point and the lyrics were very nice. His voice was very nice to hear. I think I could see myself listening to this here and there. This might be something that I could see coming up on pandora. This is not usually the type of music that I go for but its good.

Female Age 51 Rating: 10	Guitar in this song is exceptional along with the violin, lyrics, singing and drums. I would listen to this song 1000 times every day if i could. I am rating it 10 because that is what this song deserves. I enjoy listening to the voice of this singer mixed with the background music and instruments. Thank you for showing me this beautiful song.
Female Age 23 Rating: 9	The beat is very soft and reminds of me u2. Very nice melody. The guy who is singing is also talented. I could listen to this day or night. Its very versatile and has meaning behind it. Very nice choice of lyrics. The guitar is my favorite, its perfect withthe instrumental I would definitely listen to it again.
Male Age 21 Rating: 5	Starts off with a slow beat and is kinda nice. The artist voice inst to bad with the beat. But later into the song the lyrics start to not make sense. The beat is good making the song okay. The sounds are a good mix. overall is an okay song to listen to. For my taste i wouldnt really listen to it again just didnt really connect to it.
Male Age 35 Rating: 8	wow! beautiful song. the melody is outstanding. the intro is nice and smooth. the song itself is very enchanting and takes you away. I really like the fact that it's live instrumentation. the vocalist has a crystal clear delivery making it easy to get swept away. excellent guitar play. wonderful blend of instruments. this is a nice production from front to back.
Female Age 38 Rating: 7	The introduction was nice but a little slow and too soft. Guitars could've been louder and brought out more. The singer did have a unique tone to his voice. However that song never really got started it was too slow. He needed more dynamics throughout the song. His vocal range seems limited. I don't see this doing well on the radio today. However the singer shows promise with a better song. Melody throughout the song was average. I wouldn't listen to the song on the radio. Instruments used in the song we're good guitar playing was nice.
Male Age 19 Rating: 9	This song is one of those songs youd take your dog out to the beach and just play fetch with him for a good hour. This song is good. It has a nice beat. The lyrics sound like a good storyline. It makes people feel good. I usually font like country music. I also usually dont feel any emotion in the songs but in this song I cn feel the mans pain he is going through. You can feel the emotion through his lyrics. He rally expresses his lyrics very well by adding certain words to them that goes straight for someones heart.
Male Age 17 Rating: 5	This songs instrumental is like a guitar instrumental which isnt bad.the guys vocals are soft and nice and the melody is slow and peaceful.the harmony on this song makes you have a good mood and suits the instrumental. The production is also smooth.this is the sort of song you would listen to on a nice sunny morning,thats the sort of impression it gives.
Male Age 24 Rating: 8	I love the guitar at the start i think it will need a it more tuning then it is at the moment. Also don't they have more strings then that. I love the drums in the background. What i also love about this soundtrack is the vocals of the man. I think that this would be a great sosoundtrack for a movie with a sad ending.
Male Age 23 Rating: 10	theres not many songs out there that sound as good as this one.this song is different from all the others. this song is cool.this song is amazing.i like the way this song is played.the sound the guitar makes in this song sound very soothing.the guitar sounds easy and well played it goes with the others that are being played,the artist voice is perfect in this song im not exactly sure what all to say about this song because everything about this song sounds amazing and perfect.
Female Age 22 Rating: 9	Right now I am tired and the beginning of this song was slow and made me want to fall asleep but after he starts to sing it makes you listen to the lyrics. He sings how the days go by fast and it is a Christian song. Very nice melody. The colors of the sun are falling faster with you God and he doesn't know why. This song was short but it had good lyrics but I'm not sure what they meant. I think that I would have to listen to the song again. But it is a wonderful slow Christian song.

Female Age 16 Rating: 7	I really like how deep and touchy the music is, but i reckon the lyrics of the song could have been deeper to match with the music. The song should have been more of like *music* for about a few seconds and start the song after.... Overall i wouldn't skip this song on my shuffle playlist so pretty good.
Female Age 15 Rating: 7	I love the beginning, and the singers voice is beautiful. but after he finishes singing the first bit try put some higher pitch instruments in the instrumental to give effect? Maybe the chimes would do it? I think that there should be a part of the track where the music is stripped back and the singer does a bit for himself to show his talent, it only has to be like one line and repeat it a few times, perhaps 'and i dont know why' could be it? or he could do a whole verse with limited music to keep people getting bored of the song quickly, its a great song. good luck!
Female Age 16 Rating: 8	A slow guitar intro transforming into a mini orchestra followed by a deep male voice. What could better? I don't know) Everything was worth listening and I don't regret spending my time here thanks to such songs. One thing - be more confident at the chorus, really. Unfold your voice, I know you can.
Female Age 31 Rating: 10	Very beautiful song. I loved it from the moment it started. Vocals are wonderful. He reminded me of the singer for Tonic. I could see this band going places. The lyrics are lovely and the instrumentals are amazing. Would love to hear more from this band. This track lacked nothing! Everything was perfect!
Female Age 67 Rating: 8	Great song, could be a hit. Was a great assortment of instruments that sounded wonderful together. The singer's voice was very pleasant to listen to, but I did not care very much for the lyrics, they did not tell a smooth story. Had a great start to the song, and a great ending, as far as the music went.
Male Age 23 Rating: 8	This music reminds me of the blues because the beginning is very saddening and the singer starts the song with a sad voice. The guitar backing up the singer is great along with the percussion. This music is very instrumental. It makes me feel like in reaching out for something but you can't reach it.
Female Age 37 Rating: 5	This song doesn't have enough words. I like the music composition, but I don't understand the story of what he is portraying. It's too much music more than singing. He says the same thing over and over...There needs to be a story to follow in the music. He needs to be more melodic and have more emotions in the song.
Male Age 24 Rating: 7	Nice simple intro to the song, very much reminds me of the goo goo dolls. Cool use of drums on the rhythm and the guitar really adds another dimension to this song. The singer sounds good, really believe in the song with him singing although I do think this is something my mum would like more! I could happily listen to more of this but probably wouldnt go out of my way to listen to it.
Female Age 19 Rating: 8	I love the fade in of a violin (?) in the beginning, it allowed me to guess what type of song I was about to listen to. The lyrics are emotional but well written, though I did not like the last couple words of the chorus because they seemed out of place and not like a full thought. The music went along well with the chorus but sometimes it seemed out of sync. Overall it was a good tragic love song.
Female Age 24 Rating: 10	I like the lyrics and how the song is very flowy! I think this song is great to listen to when you need to relax and calm down. It is very motivational and very natured. The voice was very nice and had great vocals. The tune of the song wasn't annoyed but was very catchy. I have the lyrics stuck in my head now lol! I think an instrumental version of this would be awesome aswell.

Female Age 42 Rating: 3	I found this track to be formulaic and mediocre overall. The slick production, over the top lyrics give it away; like, we've all heard this song before. The song has an okay melody but the production is distracting, particularly the strings in the background and drum work. A more sparse, organic approach would work better.
Female Age 39 Rating: 8	The melody is nice and calming. The sound of the gentleman's voice is soft tone with a deep undertone. It's has an optimistic message with a semi-melancholy approach that ends with a romantic vibe. The music will make you sway back and forth slowly, with closed eyes and gives good thoughts of missing someone or past shared memories. It is a song of peace. Although it did not completely blow me away, it did however, take me to a peaceful, serene place, away from reality that I haven't revisited in a while.
Female Age 32 Rating: 9	I loved this song.. song relaxed and smooth! great vocals as well!! I loved the lyrics! you can tell this artist put time and dedication to this song! I great vibes and energy as well! Would love to hear this song one day on the radio as im driving on a great day!
Female Age 30 Rating: 10	I love this song!! It's perfect for weddings and would make an excellent soft rock song. It's very smooth and relaxing feeling. The music and lyrics go excellent together. The vocals are right on key! This song would be perfect for soundtracks as well! The vocals are all in tune. The writer of this song most certainly has a very bright future in the music industry.
Male Age 32 Rating: 8	I really like his voice, the instrumental was pretty good it was overall a pretty good song, I especially liked it when it got more into it. Overall really good! The only thing I didn't like was how slow the whole song was, a little more speed would be much better!
Female Age 26 Rating: 10	The melody is very beautiful. Very soothing. I love the guys voice as well. I love hearing the drums in the background. I believe this song would be a number one hit. I really like this song. His sound is familiar as someone who is really into 2000s Rock. The lyrics are also very beautiful.
Female Age 24 Rating: 3	I like the intro of the song very warming and welcoming. I like the lyrics and vocalist voice and I think its a good song. But it can use a lot more explanation to the song and more lyrics. It was kind of plan I liked the song though but it has potentental but it wasn't bad. could use more effort in to the song to...
Male Age 35 Rating: 6	Good song. Instruments don't overshadow the vocals. Has a Goo Goo Dolls feel to it. I could see this song used in any number of movie soundtracks. I would only say that the song was a pretty much the same all the way through and lacked a little climax in the vocals.
Male Age 14 Rating: 9	I really enjoyed this song because the beat and the lyrics are very catchy. The artist's voice has a calming sound to it. But on the other hand the only thing that was not very good that it seemed like a very short song so over all I really enjoyed the song.
Male Age 33 Rating: 6	The solos in your song are repetitive, try shortening them if not changing them up. The lyrics are very clear, if a bit cheesy, and cliché. The chorus is catchy and the meter of the chorus is very apt. The rhythmic quality of your lyrics are great. The high note you try to hit could certainly be better. I would not change the instrumental portions of your song, apart from the solo I mentioned above. Your melody was fairly plain and unoriginal sounding. Despite all this, your song was clearly developed with high production values and professionalism.

The acoustic sound was really something brilliant. At first, I was expecting to hear a female vocalist come in but I was completely taken by surprise. Now that's not a bad thing at all, the male voice actually suits the song and the tone perfectly. He is a really good singer, never out of tune or key and really puts a lot of emotion and power into his words, almost as if they were directly from the heart and improvised. The musical and melodic part was well written. All of the instrument and sounds and various melodies going on really blended together well and that's a really hard thing to get right, let alone perfect like you did. Honestly, this type of music isn't really my cup of tea but hey, good music is good music and this song was great. It moved me in a way that I have found surprisingly rare, especially with a genre like this. But this did a really good job at touching my heart with it's sound and it's tone and it's powerful yet simple lyrics. I really hope that this is found and discovered and made big because if there's anything the music industry needs, it's breakthrough and original songs like this. Outstanding job.

The melody of the song started out soft and sweet and slowly changed as he sang, which I found fitting. It became faster and stronger as his voice carried on. The lyrics of the song are saddening, to me seeming to be about the love fading between two people for only one side, leaving the one in love in a depressed state. Its a beautiful song, and I feel that it will become a hit, definitely among country lovers.

The intro sounded great. It was very motivational. The instruments in the background were very balanced. The vocal melody is very tuneful. I'm wondering if this song would be more interesting if the lyrics had more dept? The melody is a little typical & the chorus needs more edge. I've heard a lot of songs like this in this genre, this song needs something to make it stand out more. The singers voice is very soft and gets lost in the instruments as well.

Has a 90s feel to the music and voice. I like the musical build up to the chorus. That being said it seems to fall flat in the chorus. The voice doesn't seem to express the emotion behind the words at that point in the song. The interlude seems to be lacking some kind of support from an instrument.

this song starts off with feeling, just in the short musical introduction. the lyrics them selves are meaningful. they are about love and falling in and out of love and how he really feels. I can relate to every thing he is singing. his voice is soft and gentle and suits this track wonderfully. the musical interlude in the middle of the song is nice and adds to the feelings being portrayed in this song. the guitar sounds amazing and themusic and vocals have an equal balance between the two so that not one is more ppowerful than the other. it has a gentle feel to it. soft. meaningful. the melody was flowing nicely and all aspects blended welltogether. il could see that as a top contender in the love songs category, and may be even being played on a soft and contemporary radio station. I would listen to it. it brought back memories of my past and my life that serves as a reminder to how much I have loved, lost and grown and that life goes on, even through the happiest and safest parts of your life. well done.

This work holds itself together very well, presenting a great sense of fulfilment. There is no empty space, quite a lot to hear out for and generally very enjoyable. The violins particularly complemented the strumming in the guitar when it came in, which was pleasant. I found that a voice in a lower register could have presented some contrast to the piece overall, and this is the downside of it. To place a work like this out of the lot, to really make it shine out, a low voice would have added more texture, more tumult and therefore more life to the work. The harmonies between the bass, the violin and the guitar were also effective towards this sense of completion and holding itself together.

It's a nice relaxed song. There's a lot of open room in the song which can either be viewed as a good or bad thing. The vocals are very nice. Overall, the song is very nice. The chorus doesn't really go where I thought it would go. That's not a bad thing, just stays very mellow the whole song! I'm sure that is a vibe a lot of people would enjoy.

Female Age 36 Rating: 8	This song is a good relaxing type of music. It combines the perfect mixture of love and realization of change. You can almost feel him suffering. Everyone goes through it once so most people can relate. I think the instrumental use of high notes gave the song a nice touch. It would be a good song to play on the radio if I heard it.
Male Age 25 Rating: 3	Intro acoustic guitar and stringed instruments bring a warm balance. The vocal melody is moving. The musical interlude doesn't sit well with me, I don't feel how it fits into the song. As the song moves on I'm having more trouble putting the pieces together. It is my opinion the artists is putting too many pieces together and is now clouding the song which is making the melody slightly difficult to find.
Female Age 21 Rating: 10	This song is really awesome ! A lot of songs now day in age really dont have meanings. This so g reminds me so much of myself! Love the beat and as well as the singers voice . Very calm song with so mych meaning in behind it! I would forsure have this song on my playlist ! Love it
Female Age 18 Rating: 5	The beginning beat is nice. It reminds me of like a Nickelback song, which i enjoy very much. Your voice flows very well with the guitar and your melody is spot on. The tone of this song is very mellow and i like that. there is strange pauses in the middle though where i felt like you should have been singing. and much as im enjoying the music in the background im not really sure what the song is even about.
Female Age 17 Rating: 9	its soothing and calm. they remind me of the goo goo dolls. They're elegant and quirky, and it just makes you want to listen to more. Its light and a happy song, with lyrics of meaning. its romantic and meaningful, its gentle and gives you a carefree feeling, its the kind of song that lets you be yourself
Female Age 23 Rating: 8	I love this type of music. Sounds very original and the guys voice match this type of music. I believe love is a theme that never gets old and people can write a thousand songs about love but its personal when it comes from someone you love. Putting meaning into a song is everything. Great job artist!
Male Age 18 Rating: 4	The guitar at the beginning is simple, but still aesthetic. The vocalist comes in and is also rather average. This whole song seems rather generic. One thing that irritates me is how the vocalist ends every line rather abruptly. Other than that downside, this song is the epitome of average. It's just so typical in both melody and rhythm that I'd have to give it a 4/10
Female Age 43 Rating: 9	very relaxing in sound at the start of the song. The singers and well with the background of this song. I liked the song. I can understand the whole lyrics and the it all blended in well with the music. I highly would hear this song again and let other people know.
Male Age 19 Rating: 5	It is almost confusing, he is singing about love it sounds as but the beginning beat and flow bring a sudden sadness to you. His voice is mellow and relaxing but the guitar and back round music bring a sort of rush of mix emotions that almost creates me to dislike the song. I do not know which direction to take. I think if the melody had a little bit more of a quiet happier flow it would cause the song to bring out better internal emotions to help people connect more with the singer. his lyrics are almost a little confusing to me but he still has a catchy voice.
Male Age 20 Rating: 7	Taking someone back to a moment, time or place in life is difficult to accomplish in a song. But this song does just that. The words bring back specific memories and emotions from specific times in life. From the descriptive lyrics to the catchy lyrics, this hooks you. There are a couple short instrumental breakdowns that break up the music and hold the listener's attention. The guitars, drums and piano create a great foundation that the vocals can sit. Overall great track!

Female Age 26 Rating: 7	I enjoyed the gentle strumming of the guitar in the beginning and then comes a little faster and mood changing. I like the lyrics and melody in this song. The vocals are great and I would love to hear more from this artist. This song is inspirational for love and I think it can relate to many people in different situations. Great song.
Female Age 15 Rating: 6	Great buildup and accoustics. Would like to hear more of the bass and beats, perhaps percussion or something in the back. The buildup is a little slow, maybe a nice hook would make it sound better. Very nice to the ears. Nice payoff at the end of the song, though! Sounds great, a lot of potential for this song.
Male Age 14 Rating: 6	The intro made me think about life a lot this is a meaningful song. Its almost making me sad. the vocals are decent their should be 2 singers in the song. It somehow takes me back to when i watched twilight that love feeling that everybody gets. the instruments were all mixed therefore i cant explain that part of the song. Personally i wouldn't want to listen to this song its not enough for me.
Male Age 22 Rating: 9	The acoustics in the first 20 seconds of the track make for an exciting entrance. A tone sounds like a younger Johnny Reznick and has lyrics that are impressively catchy. "When you don't believe in anything broken beautiful" _ the portrayal to of the struggle to find the beauty in heartbreak and the fallout of love in ones life that so clearly has depressed. You can feel the hurt in the artist voice and makes for a track easy to relate to.
Female Age 33 Rating: 10	From the second this song started I wanted to listen. Im a sucker for an acoustic sounding song. Also I have to say this song REALLY reminded me of Goo Goo Dolls. I mean that in the best way possible. I look GGD! I really really enjoyed this quite a bit. Id love to hear more from this artist/group. Clear, clean vocals. Nice musical arrangement.
Female Age 38 Rating: 7	The song starts off instrumental with the guitar very soft. The song is good for couples, the want to sit out and gaze at the stars. It shows what love can do to a couple. How you long for a person. I love the song, it's very soft and easy to listen to.
Female Age 21 Rating: 9	Listening to this song it makes me feel very calm and wanting to relax and continue to listen. It has a very calming tone to the song and the male voice is also very relaxing to listen to. The song talks about love walking out and sounds like the singer is trying to find new love. The song is very well written and I would love to hear this song be on the radio.
Male Age 18 Rating: 7	Very goo goo dolls-esque. I love the cord voicing of the first minor chord you play. The lyrics weren't the best they could be but they weren't boring or unoriginal either. I feel like the chorus could be a little stronger, maybe something dynamically needs to change and that part. I think I would do without the strings. They just make the song sound a little bit cheesy. Guitar sounds great though. Good performance by the lead singer.
Male Age 13 Rating: 9	This song sounds pretty cool. I like the instruments used it in. This song sounds like a religious love song. I would probably like to listen to this song in the car. I don't know who sings it but I would like to know! This song deserves a 9/10. The song's name might be called 'The Fallout of Love'.
Female Age 25 Rating: 9	o my gosh I like the sound track. the lyrics are just right the person singing the song did a really great job. its amazing, I cant wait for it to come out I want to listen to it more. my sister even like it. keep up your work I like it.
Female Age 22 Rating: 9	I loved the background music when the introduction first started, it was soft and sweet and does give you goose bumps, and then he starts signing and its amazing, his voice is just so perfect, there is nothing at all wrong with this song, I have nothing bad to say, the chorus is right on key, the background instrumentals are beautifully played. the colors of the sun, such a perfectly played song. this song was distinctive and memorable.

Male Age 19 Rating: 7	Has a good rhythm. The vocals are alright but could use a little range because it sounds like the artist is talking through the song. That does work sometime but with a song with a tune like this it would feel much better with a bit of range in vocals and soul with this.
Male Age 24 Rating: 9	The music was great, and the piano had a calming essence, then other instrumentals came in the music build up from a calming one to a more epic music. The beat was very good and the singer was keeping up the pace of the instrumental which was very good. The cons is if they added more chorus into it it would be good and maybe increase the bass of the instrumental, but overall it was a great song.
Female Age 31 Rating: 8	Love the guitar intro. Made me think of freshman by verve pipe. Voice is amazing very delicate and easy flowing. The beat to the music is great very settle but made to be heard. I like the pause in the song to go back to the instruments. Very good story line with that lyrics.
Male Age 19 Rating: 5	The guitar melody in the beginning is intriguing and leads well into the soft, sad vocals. The lyrics are a bit sad and hard to interpret. There doesn't seem to be much as far as content to this song. It seems to be mostly a filler. There isn't much that I found appealing to this song. The guitar bridges are alright enough to keep you listening but nothing too complicated or interesting. The lyrics to all the verses are similar and boring. It sounds alright, but not fantastic
Female Age 30 Rating: 3	I couldn't get into the song it sounded like the go go dolls. I would like them to be a little more like themselves please. Maybe add a female singer and I would like to hear some drums in the background. If it was the 90s I could see this song being a hit song but not now sorry.
Female Age 16 Rating: 6	The instrumental beginning is very beautiful. When the singer begins, the whole song shifts. The song becomes very vibrant and even more beautiful. The lyrics are also very beautiful. The voice could be more unique but besides that, it is a very good song. I would listen to this song again. Even though it is very good, one could get sick of this song very quickly.
Female Age 38 Rating: 8	Intro - the guitar playing is quite beautiful. It made me curious to listen to the rest of the song. The vocals - the singer's voice fits quite well with the instrumental playing. His voice is so pleasant and easy to listen to. The song itself - I got a rather Goo Goo Dolls vibe from this song. I really liked the richness of the instrumental track and the it seemed like a song that could be played anywhere - radio, workplace, movie soundtrack.
Female Age 23 Rating: 9	I like this song. I think it has a really great melodic contour. There is some imagery associated with the song. It reminds me of walking through a rainforest. The tempo is decent and the lyrics make sense. I could listen to this all day long. I would give this a 9/10 as I think it is nearly perfect. If I could make a suggestion, try adding some more instruments.
Female Age 23 Rating: 10	When listening to the long it has a beat that is calm and serene for the listeners. I like the message that is heard about love. During the song you can hear that the song is about love that can end at anytime. When this happens one can become lost and confused in the world. The acoustics in the song are in all the right places. It draws your attention to lyrics in the song that are meaningful and need to be addressed.
Female Age 25 Rating: 10	I really enjoyed listening to this song. His voice. the beat. The music. The words. Very moving song. A relaxing song to listen to after a long day. A wind down song. I would definitely recommend this song to a few friends and family members to listen to. Definitely my kind of music. My kind of song. Thanks again.
Male Age 24 Rating: 8	After the first minute of listening to this wonderful music it has given me goose bumps. I guess this is because the vocals are very clear and the sound quality is also very clear too, a clear sound quality shows that the artist gives a lot of time and effort into making this music. Good job and I enjoyed listening to the quality music!

Female Age 20 Rating: 9	The beat of the song is something I usually listen to while I am studying. It is a good song to listen to if you are just relaxing. I would listen to this song if I was trying to just break away from the world because it would be a great release song.
Female Age 26 Rating: 8	The intro of the song is very nice and strong. The style of the singer's voice is very nice and pairs well with the beat of the instrumentals. I do wish that there was a little bit more flow between each word as it seems a little choppy. I like the overall feel of the song as it's a little folky mixed with alternative and I'm left singing the song in my head.
Male Age 40 Rating: 6	It is a good song and good back round music but it is not to going to get stuck in someone's head. And that is what you want In a song. But the song does sound like it was stolen from a different song. I like how it does show what he is singing about and i think it would be a song to put on a radio station but I don't think it would sell well on iTunes
Male Age 21 Rating: 4	Very generic lyrics however the instrumental is soothing to listen to at first. I find myself listening to this anticipating a stronger vocal presence. The songs makes the impression that there is a build up, a climax, but we're left with none. This song needs more a stronger singer, the notes that the singer is hitting are very flat and unappealing.
Female Age 17 Rating: 8	I liked the acoustic start to the song to get the listeners attention. It really engaged me in with the song and then made me want to keep listening. When the lyrics popped in, it got me all excited! I did not give this song a 10 though, because I unfortunately did not like the way the lyrics faded out abruptly instead of slowly and smoothly.
Female Age 19 Rating: 9	Great chords and harmony, appealing to the ear. I like the lyrics and the easy going tempo, makes it relaxing to listen to. When I first started listening to it I thought It was just another " I love god" kind of song, but this is something I'd definitely sing in the car or the shower! I didn't give it a 10 because It got a little repetitive after a while.
Male Age 20 Rating: 8	pro : Very good lyrics and organization , sound quality sounds really good , con : if anything that i would say to work on would be better pronunciation with your notes, and overall more of an emplied emphasis to the song as far as that i mean ,it feels like you need to get more in character according to the song
Female Age 53 Rating: 8	I love the instrumental part of this song. I think it is a sad song that is nice to hear from a male singer for a change. Is it a break-up song? Or a song of a broken-hearted man. The music is on-point. perfectly executed with each instrument playing a part in the story and questions the man is asking about in the song.
Male Age 17 Rating: 8	It's a beautiful song And it sounds like a sad love song. It really sounds like country music, this music reminds me of the times when i got to visit my aunt down at swan hill and she put on country music everyday and i actually loved listening to that sort of music.
Male Age 20 Rating: 7	With a mellow backing track, and an equally soothing voice. This song will transport you on a long summer road trip, a perfect accompaniment to some post relationship reflection, evoking feelings of a melancholy happiness. This song is certainly easy to listen to, as well as being highly relatable, with gentle guitars and a swooping build up that easily let your mind drift off into a state of dreamlike peacefulness. This song will however sound familiar to any fan of Ronan Keating or Daniel Bedingfield's solo careers, as perhaps a little soft. Although filled with emotion, this song does have a tendency to lean towards the more clichéd, soppiier side of pop, with classic lyrics of the one who got away. This song certainly sounds better with nothing more read into it, as superficially it is a little thin on the lyrical side, a man singing about the one he loves is certainly not ground-breaking musically. But hey, if it's not broke, don't fix it, right?

Female Age 20 Rating: 8	This song is very heartfelt and uses acoustic guitars to the best of their possible ability. The percussion was used in the minimal which added a very soft, sad feel. Overall, the song was good. The band has a strong core for their music potential. Very well done, there is a very bright future for you.
Female Age 42 Rating: 4	its a very fast up beat song and it sounds like a nice love song.great for pop music lovers. it really has some meaning in the words, just about every line.in the beginning of the song there is a long guitar solo and than you hear the words but most of it is words in the middle of the song
Male Age 18 Rating: 9	I love the beat and lyrics. It sounds like a song I would totally listen to on a fun weekend or just a chill day. An Instrumental would also be great for this song. I give it a 9/10! I like how the pace of it isn't too fast or too slow. This is a hit!
Male Age 22 Rating: 5	This song would be very good for people who like love songs! This song has a really nice instrumental! The lyrics are okay, but that is my opinion because i don't really like love songs, but the instrumental is really strong. I would give this a 5 out of 10. Also, the guitar sounds very good. Definately a strong song.
Female Age 41 Rating: 6	Beautiful instrumental beginning. Voice wasn't anything unique, Still a beautiful singing voice.Words are a little repetitive. The lyrics were relevant to a typical relationships, falling in and out of love. Seems to be a typical love song. I feel it would appeal to a broad audience not just a female listener.
Female Age 33 Rating: 10	I could definitely see my self listening to this song. Love the soft beat. Good Job. It's a song that I would sing to my soon to be husband at our wedding dance. Amazing voice. I love the words, the music isn't "oldies" but it's not that headache music either. Soft tone. Very catchy tunes.
Female Age 23 Rating: 7	This is a song I would listen to if it came on the radio and has the possibility of being a catchy tune. I like it! The song has a laid back and kind of mellow vibe. It would be a song to listen to when you have had a really stressful day and you need to wind down.
Male Age 27 Rating: 4	nice cool song!!! its cool even though its not my type of music i would rate that at the most for me!!! i would consider it to a friend or two brighter your day smile type music even thought it alright thank you the kyrics are ciol and nice kind of beat and the instruments use are nice
Female Age 50 Rating: 8	This song has beautiful lyrics, lyrics that can really captivate you. The beat of the song is also very beautiful. This song kind of reminds me of a older alternative song, and its very good. The only thing that may been to be improved is that the lyrics are beautiful, but need a little work, something that tells a bit of a story. I can imagine hearing this on the radio one day!
Female Age 20 Rating: 7	This song is really nice. i can really see myself listening to this when i'm home relaxing, cleaning, etc. the harmony is mellow it's great to me. i actually love it. so if you like relaxing at home this would be a great song to listen to. its peaceful and very mellowing
Female Age 15 Rating: 7	I like the beat and rhythm of the song. The meaning was nice but I wasn't able to get it completely. I only knew it was something to do with love and the sun. I would improve how clear your voice is as well. I was only able to hear the background instruments and some parts of your voice. Let your voice over power the instruments. Good Job
Female Age 19 Rating: 8	This song is pretty good . Not my favorite . It's something i would listen to in the car but not something i would have on my phone. Really think he could have done a little better and not sound so broke up, but other than that I'd give this song a 8 on a scale 1-10

The guitar melody is calm and relaxing, and the lyrics are very matching to the melody which makes the listener connect. I think there could be a dramatic pause in the middle or the end. Where the guitar goes off or on a repetitive single beat and you hear just the singers voice to emphasis the lyrics. I think if you do a love song you need to bold dramatic edge to get the core message across to listeners. I think this would have potential if it had variation, however at the moment I think only someone famous could make this a potential hit. If a underground artist released this I think it would fade away into the background. That being said I really liked the melody and lyrics I just wanted to hear a bit more and for the song to go out on a bang.

Great "chill lounge" song. The melody is very relaxing, and the words are touching, yet not too emotional. Perfect for the modern coffee shop setting. The voice could use a bit more emotion - slightly monotone, could use more emotion to be on the same level as the lyrics. The instrumental portion was well done, I thoroughly enjoyed the sounds, just would say to improve the voice to make it a solid 10.

I like the beginning melody as it harmonizes really well together with the piece. The lyrics are clear and catchy, making the music really easy to listen to. The lyrics are also meaningful to me, they seem fun and bubbly but the tune is very solemn, making me want to listen to more of the song without even needing to. I can relate to the artist in his way of falling in love but not knowing what to do.

I gave this song an eight because i felt like it was a heart felt song ,but it didn't gravitate to me. The track however was well synced, the melody was on key, but the lyrics were just repetitive. The song was a little misplaced in the beginning for me. It almost seemed as if it was a soft pop song. I feel like over all the song was well delivered.

The music on this recording is a bit slow in tempo and he guitars are not played with much conviction, the tempo hurts the vocalist as he is struggling in this Goo Goo Dolls re write, i found the music to be a rehash of the Goo Goo Dolls meet Lisa Lobe, the tune is dated and 1990s sounding, it is o.k. at best but I feel it is very unoriginal and to much of a cover made out to appear as an original, retro copied sound and song,lacking originality in my opinion,

A really wonderful song. I was mesmerised by the vocalist, he has such a silky smooth tone and appealing singing style. He really does sing the lyrics with wonderful feeling, but such an inviting kind of warmth and smoothness to their tone, that you can't help but find them appealing. The music sounds very professional and classy, with strings and guitar that are played with grace for the whole song. This song really stands out amongst others, it has professionalism and some really great vocals. Destined for the radio and the charts.

The acoustic guitar sounded really simple ,but it had a great sound quality and really impressive vocals through the track ,the singer sang with emotion and feeling throughout too ,the bright electric guitar added a spark to the overall sound ,the acoustic strummed rhythmically in the background ,the verses were mellow and good build up to the chorus ,the lyrics had a good meaning and sung from the heart too.The music was simple ,but it was effective throughout.

Warm and earthy guitar chords start this one off with a very slow vibe. I like the quiet ambience of the music in the beginning. The man's chords in his voice reminded me of a singer like from the GooGooDolls, it had the same kind of flair to it. There is quite a nice background sound to this one at first but I seemed to have gotten tired of it too fast. Sleepy but easy listening vibe makes the whole energy feel like it was done professionally, nevertheless. This singer is serious about what he wants to do in the song. He wants to make the song a very easy going melody that really makes the listener feel romantic and calm. There is a nice quiet rhythm of the music and the singing matches up with it all. I do not love the song, it is kind of too quiet and too calming for my mood at the moment. I just don't know if he is ready to be put on the radio. I am sure he will have fans somewhere, maybe he can make some youtube videos and take it from there first. After a minute or two it is just really kind of slow and sleepy melodies for me personally. I would like for him to do something exciting at least at one point regarding the chorus at least. The beauty of the song shines through if you already like the style of the genre though, you just have to like it a lot though. I do like slow tunes but the voice here is too familiar like someone else has his style already too.

whilst the opening guitar is not too complicated, mixed with the strings it provides a nice backdrop to the leads delivery, melodic, and slightly warming. The drum work does give the track a bit of a kick in places, the track is better for this, giving is something that gets it noticed. that is apart from the lead vocals, these are really good, the leads delivery is spot in, and the leads tones sell the track with ease. This is a good track, i really liked the vocals, the make the track really accessible. a strong middle of the road track.

This song was really good . I was really impressed on how the singer was in tact with this song . He has a great voice and really makes this song meaningful . I would say that the song gets a little boring because he didn't really sing any high notes but overall his pitch was really well toned and he delivered with his voice. I think his pitch could have been better but the song was great to listen to I really enjoyed it . The mood that the song put me in was at peace.

The gentle guitar riffs, followed by the strings and a gentle but effective tempo, really made this song stand out from other ballads. There are a lot of organic sounds within this particular song. The guitars work well with the bass and the violins without overwhelming the track. I believe that the vocals are well performed; the lyrics are clear and performed with good diction. There needs to be a little more emotion in his performance though. I need to know why he cares about singing this song. The song breaks area great touch and really show great musicianship. I would listen to this again.

The mellowness of the vocals and the melody reminiscent of the Goo Goo Dolls, "I Just Want You to know who I Am". The lyrics are phrased with short phrases. The vocalist gives the apt expression for 'falling out of laughter'. He gives clear to understand articulation. This pleasant melody is supported by an equally lovely sound by the instrumentals. It sounds very rich, like its orchestrated. The fullness of the arrangement is probably supported by the keyboards. To sum it up, the track is given some great tempo, beautiful sound all balanced with the vocals in this charming melody.

The violin comes after the guitar in this, but really steadies the already slow beat of the guitar. The song must be pretty serious the way it is starting out. The singer sounds good as many do. So what does his lyrics have to say? That he is lost without a women? Sounds like everyone ever. He does describe some nice descriptive lyrics in his own way. The song is pretty and nothing to complain about.

this sounds good to me. the voice is very easy on the ears and sings the lyrics off the verses very well. the translation is very good and can be easily understood and followed. it is believable. i can be a fan of this track. the vocal arrangement is very good. the dynamics of the melody is very good too. i am a loving the additional orchestra in the mix. though it sounds grand, it does offer me an intimate tone regardless. this song flows well in its tempo and tone is easily rides the arrangements of the dynamics. this composition has a definite potential. i can see this added to a movie soundtrack. it has story line appeal to me.

I sounds like the vocals are way too loud in comparison to the music. The music is very nicely put together and the track starts off very nicely. The acoustic and synth strings work well together. the vocals are good and have some nice lyrics going on. There are some odd pauses in the melody where the ends of the melody sort of trail off. il think it has to be sung a bit more rather than spoken. Still it's a very solid track.

There was certainly a great level of expression and emotion to be found buried in the intro of this song. The piano chimes are always a great classic instrument used to create any kind of scene, but the general variety of instruments in this song instantly created a deep, emotional sad-feeling song. There was a great rhythm used to create this effect and the sounds all worked together well to echo and compliment eachother as well as supporting eachother. It was very unique and captured my focus very quickly, as it had a very breathtaking, thought provoking sound to it. The pitch was very deep and solemn in all the chimes yet sounded light also, which is a perfect balance. It was very original and I really enjoyed listening to it. The vocals were just breathtaking also, they perfectly matched with the instrumental and held the same kind of mood and emotion, both in tone and lyrically. They had the same sad atmosphere and the same incredible balance and accuracy in pitch and tone. The singer has a clear natural talent to sing, and performs incredibly in this song; his work completely took my breath away. The lyrics were so meaningful and so sad yet so relatable to so many people. They really worked in great sync with the vocals and the backing music. They boasted excellent originality and were very catchy. My favourite line was 'scars from days I can't remember' as it shows just how deep and sad the subject is. I also liked the line 'I try to believe but every day I'm lost without you' as this signifies sadness and loneliness, which many people will be able to relate with. I would definitely purchase this song and would cherish the ability to listen to it out of choice. There are absolutely zero faults in it. I absolutely cannot believe this song has not already received musical recognition. The singer is very talented and natural, and this is the type of music we need in today's industry.

Doleful acoustic guitar melody is matched with dour strings in this quiet love ballad. This is definitely One Republic territory with a sensitive dude in a tightly controlled vocal performance that smolders. The rubbery bass and classic rock acoustic strums give way to big stringed chorus and sentiments of the 'fallout of love'. The lightly gothic emo lyrics are perfect for the target audience –the romantically challenged young. A little sour for me but its not for me.

The beginning of the song was really slow and some relaxing sounds playing which made it a really calm listen. I thought the vocalist had a fine voice to work with which was nice too see. I liked that the tempo kept changing in the song. I think he needed more passion in his voice.

There is a strong "iris" by Goo Goo Dolls vibe going on with this song. And because of that, it actually hurts this song a little bit, because it never soars like that specific song I am forced to compare to does. I think the vocal are good. I think that the lyrics are good. The musical arrangement is also good, but good in a way that has already been done and done better. I guess that sounds like bad news for the artist, but my personal opinion and comparison won't effect everyone of the world and many will be pleased to find this very solid song.

The intro i thought gave you this deep emotion as you listened to it. It isn't every day that you have a song that can do that to you just from the intro but this certainly has. I loved how it sounded as the song continued. I think the music was great. It was soft but the guitars throughout really added more energy to a song, but the guitars certainly didn't outshine the true meaning of this song. I love the different melodies throughout, even though it is quite repetitive, it still sounds incredible. I love the lyrics, they are just beautiful. I feel this song can really mean something to a lot of people, it has a great meaning to it and I just think the overall sound and the vocals are brilliant. The artist has sung this song exceptionally well, you can almost feel the emotion as he sings the song - which is what you want in a slow song. I personally, could listen to this song all day. It is just such a good song. I love it. Great job.

Slow acoustics makes a song a lot more smoother, as the song moves on, the music gets louder and better from here on. The chorus is really good and the lyrics are interesting. The singer's pop voice is not as upbeat or clear as most pop starts the media listens to today, which I think his voice works for this song.

Hearing the electric bass gentle low strumming while two light beats off a bass drum and one soft cymbal being hit. Gave this single a lovely sad tune, But then an electric guitar and regular drum began to pound a faster quicker rhythm. The guy sung in a medium tone that sounded like most pop/rock male artist. Who aren't really that talented but still some how manage to becoming popular singers. So yea his voice was very mediocre which didn't surprise me. And of course since this was a pop/rock song you have to have a electric guitar fast pace up-beat tone. While a drum-set was banging and clanging some low but clamorous beats. Which will have fans of all ages pumping their fist in the air and singing to the music. Yet i hope he can branch out and not be like every other artist of this genre. He needs to try to practice singing so his voice can grow and become stronger.

This song had a slow tempo and was very calming and relaxing. The lyrics were heartfelt and preformed with emotion. The hook was different than the verses so it broke up the song and made it more interesting. The vocals were good. There was not a lot of variety in range of notes but all of the notes were on key. The singer had a natural casual talent and he didn't have to try hard to sound good. Everything blended well and I think this song will be a hit. It reminds me very much of the Goo Goo Dolls.

This was a pretty good song to listen to. I enjoyed it. Honestly the sound made me think of the Goo Goo Dolls. Instrumentally the song was quite good. The use of simple sounds to build a more complex sound was interesting to say the least. And the song was still able to hold a strong rhythm and beat throughout the song. It was a bit repetitive as the song progressed though. And the column balance between the music and the artiest was off. The artist vocals sounded fine. But way quieter than the music. The music almost drowned out the artists voice. So find a way to balance that so the vocals can harmonize with the music. Lyrically the song was easy to understand. The message was good. And it was done in a different way. Which was nice and refreshing. I think if the song fixed the balance between the music and artiest this could be a radio hit.

A lovely and tuneful introduction that is well played and steady. It is a smooth way to start a track and i thought it held plenty of potential. It establishes a lovely melody and creates a confident beat. The vocal transition begins comfortably and i was impressed by the production quality. The vocalist has a fantastic voice, it is raw and edgy and really stand sour from the rest of the genre. He is putting on a passionate and confident performance that keeps the audience enthralled. The melody has a pretty shape to it, it is vibrant and bright with some well chosen lyrics. They help to create a natural flow. The instrumental is classical and supportive with enough layers to carry the audience through the track.

Great acoustic guitar beginning that is played very well with composure and elegance. This a very melancholic sound that you would play when you slightly down. The lyrics are incredible as I am connected to his story. I feel that he is lost without this person and I am sure we can all relate on some level. This melody is gorgeous, such a catchy tune. The louder dynamics are perfect, it really holds my attention and adds to the mood in the story line. The harmony is very well done, all of these sounds interact wonderfully. The guitar on this track starts it off nicely it has a cool melody I would say. And when love shuts the world out we'll go on... and every day I'm lost without you" These are lyrics that sum up this track. It is a bit like a hippy love song. Male vocal is good though he has skill. So this one gets an 80 percent score from me today. Nice harmony and good drum beat here. This matches the mood of the track. Will probably chart in top 12.

I think this artist has so much potential. He is so talented and I think he is really good with what he does. This is my first time back on here in a couple days and I was worried this would not be a good experience for right now. But the music was good, it was slow but I was very impressed with this artist. I am not usually a fan of slow music but this was really good. The artist's voice was beautiful and I was so happy that I enjoyed this. I love giving out good reviews and hearing good music, and this was definitely good music. The rhythm was amazing and it was just really good sounding with his voice. I loved the chorus I think the chorus always has the really good sounding part as luckily for me the chorus plays more than once. I think this was a really beautiful song to listen to and I know many people would like it.

The guitar at the start makes you feel like you're back in the good ole days of high school when good music was put out like this. The vocalist speaks with his heart and is on point. The treble and bass are higher quality than most songs in this genre. The electric guitar is on point and fits perfectly with this song. High quality music and would be recommended for a radio release.

I love this song. The instruments that are being used complement the song very well. The lead singer's vocals blend very well with the instruments. The lyrics make you realize a lot of things that are going on in your awakening life. The lead singer is very talented as well as his band in the background. I love this song. It opened my eyes.

Male Age 13 Rating: 8	The tone was very good. The vocals and the instruments complemented one another. The mood was exceptional. I really liked the solos too, as contributed to the excellence of the song. Overall I rated the song a 8 and I believe that it has huge potential to be great. That is because it is amazing and deserves a record deal signing. With the signing the song can be a hit!
Female Age 22 Rating: 8	Loved the progression of the song! Very soothing instrumentals that led into the vocal verse very well. There is an awkward pause about a minute in, where the vocals cut out and the instrumentals continue (however, the instrumentals are not like a guitar hook - they are rather bland). The vocalist is pretty good and matches the mood of the song quite well. However, I'd like to see some more emotion on the part of the vocalist and more variability in terms of the instrumentals (as in, you could try cutting out the drums in some parts to allow the vocals or strings to shine more).
Female Age 34 Rating: 5	Artist has a way of expressing himself threw his lyrics. The song has a nice sound to it. The artist has a voice that anyone would love. The sound is different. Any label would eat this song. Everyone loves a love song. So glad there is no reverb on this tack. The melody in this track definitely can be heard threw out the son. I think the mix of the song was done well.
Male Age 16 Rating: 10	Music is a beautiful part of humanity that will always continue to grow. I just heard this song and completely fell in love with it. it is a beautifully written piece of work. This makes me think in a peaceful state that can't be broken. This song will without a doubt be put in a bright place at the bottom of my heart. I would highly recommend this song!
Female Age 28 Rating: 7	This record had an introduction with strings that was really soothing, and good to hear after only hearing upbeat songs all the time. The singer had a nice voice, it was also pretty expressive. I think it meshed well with the style of the song. The lyrics were the greatest part of this song. They were well written and you can tell there was some thought out into it. They also seem very heartfelt. This song had simple instrumentation. This could be a hit record. I don't think of the radio though, only because it was rather slow.
Male Age 78 Rating: 7	Guitar at the beginning was beautiful and the speed was perfect. Vocals were outstanding and drums were also really superb. The lyrics were not very good though. Too many love songs now a days. Almost every song is about love. The rest of the song carried on well and kept me in to it. 7 out of 10
Female Age 19 Rating: 8	The guitar is smooth and presents an easy going introduction into wonderful vocals. The wonderful vocals are accompanied by fantastic lyrics which of course make the song even better. I enjoyed the melody that went along with everything. This song elicited vivid imagery and told a beautiful story. The chorus mesmerized me!!
Male Age 20 Rating: 6	Sounds pretty good to me. The sharpness isn't that bad. I wouldn't sweat that too much. It does sound pretty 'white' though. Good for you not using autotune, you'd never improve if you started using that crutch right now. Nice voice, lots of promise as armistice said. I like the rhythm and instrumentals.
Male Age 20 Rating: 8	slow and calm start to the song, great use of the guitar. I think this is a very relaxing song and is great when your in a mood to just relax. vocals and lyrics come in to the song very well. i dont usually listen to these sort of songs but i am definately interested in listening to this one and others like it more often. overall great song. 8 out of 10 from me.
Female Age 24 Rating: 10	The struming of the guitar really brings you in. This is a song you can really lay back, and listen to. While writing especially for me this is something I can purely relate to. The drummer was simply outstanding. The instrumental background was very well balanced. I love the male vocalists voice! He really has a nache for this. His voice was beyond words, very tuneful to say the least! I truly enjoyed listening to this track. The words were so very meaningful as if they were coming straight from his heart. What a creative track!

Female Age 26 Rating: 9	Very nice acoustic guitar sound, clean and neat. I love the instrumentals at the beginning, beautiful melody. The voice is just amazing, lots of character, texture and color. It is indeed a beautiful voice and it melts perfectly with the music. The lyrics are very good and what's most important, very well performed. The drums and the rhythmic base sounds great as well. This is a great song guys!
Female Age 19 Rating: 9	i absolutely love the acoustic guitar beautiful. plus his voice complements this song well. id definitely share this with people. whats it called? it carries so smoothly its really enjoyable. it being a love song it has to be smooth and i think it nailed it here. it was beautiful
Female Age 40 Rating: 9	intro is well balanced and atmospheric. it makes me feel relaxed. i like the way the lyrics are added then fade back then drop back in and the cleaver pick up leading back into 2nd verse. lyrics are inspirational. structure of verses and instrumentals are building and engaging. singer has melodic tone to his voice. very relaxing structure.
Female Age 15 Rating: 8	I love this song. It's one of my favorite. I love everything about it. It has nice lyrics. The singer has a nice voice but the only thing he has to work I find is his voice emotion. But actually I mistaken on song lol.but it's still a great song. The chorus and verses are great. The instrumental is really nice I love how they made it sound slow and nice it brings a great vibe into the song.
Female Age 26 Rating: 9	The melody is very nice. It has a haunting feel mixed with heart ache. The vocalists talent is easy to hear from note one. The rhythm is amazing. The vocalist stays right in time with the music. They just seem to go together perfectly. The harmony is well done. The lyrics are nice. It is hard to write a love song that hasn't been done before, but I believe this song contains just enough unique lyrics to do it.
Male Age 33 Rating: 7	The introduction was perfectly subdued, which contrasted nicely with the opening vocal lines. the vocals were clear and bright, sitting strongly in the mix. This song reminded me a lot of the 90's Googoo Dolls delivering soft pop music about inoffensive things, but with the sort of attention to dynamics and edge only a rock band pays attention to. Fans of the Googoo Dolls will love this artist! The synth strings were a bit cliché, and the acoustic guitar wash was predictable, but together make for a strong presentation. I'd like to see a little more depth in the mix for the drums to make this song a bit more masculine.
Female Age 29 Rating: 8	I really like the way the instruments lead into the song with a sharp and lingering beat. The rhythm has a deep and solid sound that I hope gets recognized. Tone and harmonies give the song more depth and style. Instruments sound decent and wonderful. The recording quality was fantastic and the performance will be talked about for a long time.
Female Age 45 Rating: 9	I like the beginning of this song, it sounds very professional and well produced. The singer has a strong voice and delivers the lyrics with clarity. The listener is drawn into this song instantly. I love that they lyrics offer a story rather than being simply a noise. The arrangement is first class with a perfect mix and blend of well played instruments. The arrangement harmonizes well with the singer's vocals. He has a melting and rich vice with good tone and pitch and hits all the notes well. I love the instrumental solo but feel that this could do with perhaps being slightly longer. I can tap long to the beat of this song and the lyrics are memorable and sweet. I love it.
Female Age 27 Rating: 9	The introduction to this song was a little drawn out and the instrumental between singing was also a little to long as well. The singer has a familiar voice that reminds me of some of the popular singers that are on the radio today. This song would definitely make a good radio hit.
Female Age 55 Rating: 10	A favorable beginning with a soft melody for an introduction. Well shaped melody. Lyrics: positively nice and soft. I can hear the words nicely. The flow of the words are admirable. Harmony is excellent. Admirable satisfying sound with the words to go with it. Instruments are soft very attractive sound. Processing a warm rich effect. A nice song to sit by the fireplace and enjoy a cup of hot chocolate. Very well a hit in my book!

This song sounds like a christian song, its very calm and peaceful. Its like a love song too. he instruments that are played are the guitar, drums and more. The singer has a nice voice and sounds a little sad tho. The beat is very relaxing and melody goes along with the beat and the tempo. The lyrics are positive and I think it will sell at the stores and on the radio too. Its a song good enough for little ears and all ages because it talks about love and good things not bad things or cursing. Theres no negativity about this song at all, I like it very much.

I think the intro to the song is atmospheric and it has a good bet that sets up the song. I think that the melody is interesting but not to tuneful. The lyrics are clear and you can make them out easily. The rhythm to the song is pretty good as well, just not to upbet.

I really enjoy listening to this song. The guitar in the beginning really establishes the mood of the song. I enjoy the music more than the actual lyrics which could rhyme more. I feel like there are a lot of pauses in the song that are unnecessary. I will give this song a 7/10 because I feel that this song has the potential to be much better.

I like the intro, it's like a melody from heaven. When you start to sing, your voice attracts me too much. It has enough power and warmth to melt my heart away, guy! I like the lyrics as well and you sing emotionally. You're like angel from that heaven, you really know what you have to do with this song to attract your listeners. But I think it'll be much better if you show some high notes to emphasize some important words. However, it's such a great performance. I give you 8. See you next time with more more great performances, guy with angelic voice!
